Forecast For Northeast England
Issued by Met Office Exeter
at 0400 on Friday 27 Aug 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Rather cloudy, best of the warm sunshine in the west.

Today:
Cloudy start, although some brighter spells possible in the west. Cloud breaking at times through the day to give some sunny spells, mainly in the west, but cloud likely more persistent along the coast leading to a cooler feel. Maximum temperature 18 deg C (64 deg F).

Tonight:
Variable cloud and clear spells, with cloud amounts largest and most widespread across the east. Light winds will allow the odd mist and fog patch to develop where skies clear. Minimum temperature 8 deg C (46 deg F).

Saturday:
Any early cloud and isolated fog soon lifting, to leave a largely fine day with good sunny spells. Feeling warm in the sunshine, but remaining rather cool along the coast. Maximum temperature 21 deg C (70 deg F).

Outlook for Sunday to Tuesday:
Dry with sunny spells Sunday, once early morning fog clears. Mainly dry Monday and Tuesday, although thicker cloud could bring spots of rain. Temperatures near normal, but cooler along coasts.
